VueZone Wireless Camera System

Do your kids walk home from school and forget to call when they make it home? Do you have a dog or cat that you need to keep an eye on throughout the day? Do you have an elderly parent or friend that you would like to be able to check on, but can't

get away from the office? A VueZone camera system might be the solution for you!

The VueZone cameras were brought to our attention by a local business owner. They use a motion sensor camera at their business, not far from their house, that will alert their smartphones when someone comes in the door. Now they have the freedom to tend to housework or the kids, while the business is open, and not lose any customers!

So, what is it? A completely wire-free camera monitoring system that transmits wireless video to an online account so you can check it away from home. Video recorded by the VueZone camera is streamed wirelessly through your internet connection to online storage. With the free Basic plan you can log into your online storage from any web browser, and view footage that has been recorded. The Premier plan, available for \$4.95 per month or \$49.95 per year, allows you to have alerts sent directly to your smartphone or iPad, pan and zoom digitally, modify the motion sensor activation settings and much more.

For more information on the VueZone camera system, visit: www.vuezone.com

What do you need? The only thing you will need is the wireless camera system and a broadband connection where the cameras will be located. If you are already a subscriber to Haviland Telephone's high speed DSL, you're set.

Do you have a shed or business a far enough away from your house that the wireless signal doesn't reach? Haviland Telephone can set you up with an EZ Bridge wireless signal booster for only \$10 per month.

If you would like to find out more about our DSL packages, call one of our offices at 1-800-339-8052 or 1-800-287-7905.

For Your Information

Copyright Infringement

Copyright owners take alleged infringements seriously. Since we are an Internet provider, we occasionally get notified by a copyright owner that one of our customers is transmitting an illegal copy of a movie. Please, note that our Acceptable Use Policy explicitly prohibits illegal activity. The copyright owner could subpoena your name and address, as well as proof that you were the customer sending or receiving protected material. If illegal copies of materials are suspected to reside on your computer, the copyright owner could obtain a search warrant to have the computer seized. Do you really want to risk this to save the price of a DVD? Keep in mind, if you are downloading a movie, TV show, music, book or games that you did not pay for, more than likely it is an illegal download.

Universal Service Funds

Our customers pay only a fraction of the cost to implement and maintain the network that makes local calling, 911, in-coming and out-going long distance calls, and high-speed Internet possible. The Federal Universal Service Fund and the Kansas Universal Service Fund draw money from other phone customers to help provide these services in areas where it isn't economical to provide these services based only on local customer revenues. Costs are higher in rural areas mostly because of 1) large distances from switching equipment to customers, and 2) very low population density. Generally, more urban areas in Kansas support our services, and more populated states support Kansas. Phone bills would run over \$100 per month higher without these programs.

HTC Equipment

Haviland Telephone Company would like to remind its customers that cabinets and peds located in our rural areas are property of HTC. We would ask that you not use this equipment for any purpose. Tampering with the cabinets or peds can cause interference of rural phone service.

Haviland Telephone Office Schedule

August Bill Payments Due: August 15
Disconnect Date: August 23

Notice To Customer's Using Your Bank's Online Bill Pay

Online bill payment is a convenient way to pay your bills. Haviland Telephone Company would ask that, if paying your bill this way, please reference your telephone number as your account number. When you pay a bill through your bank with online bill payment, your bank sends us a check. By using your phone number as the account number, you will ensure that it is on the check that is mailed to us. Since payments are posted by phone number rather than member number, this cuts down on the margin of error. We appreciate the convenience of online bill payment and would like to do everything possible to serve you better. For other convenient ways to pay your bill please feel free to check out our E-Bill options at:
www.havilandtelco.com.
