Kansas One Call

Call Kansas One Call BEFORE you dig.

1-800-DIG-SAFE

It's The LAW!

Planting a tree or shrub? Installing a fence or deck? Whether you're planning on doing it yourself or hiring a professional, any project that requires digging, requires a call to Kansas One Call (KOC). Digging without calling can disrupt service to an entire neighborhood, harm you and those around you, and potentially result in fines and repair costs.

Underground utility companies and other operators are required by law to be paying members of the KOC system, and cannot locate any lines without a locate ticket. Calling KOC before every digging job gets your underground utility lines marked for free and helps prevent undesirable consequences.

Kansas law also requires that KOC be contacted at least 3 business days before digging is to begin. Lo-

cate requests can be made 24 hours a day 7 days a week. Filing your locate request on the weekend does not change the effective start date of the ticket, you will still have to wait 3 business days before digging. Emergency locate tickets can be granted if there is a danger to life, health or property which requires immediate correction. However, providing a misrepresentation of an emergency excavation can result in fines and penalties.

Locate ticket requests can also be submitted online at: www.kansasonecall.com. You can check the status of a ticket, read tips on digging safely, learn more about when or how to contact Dig Safe and view the entire Kansas One Call docket at the website as well. Remember, calling One Call is not just a safety precaution, it's the law.
