June 2011

Call Feature Of The Month

Smart Telemarketer Shield gives you screening options including:

Block Unwanted Calls (including calls from telemarketers)

Recognize Family and Friends

Pre-select Numbers to Block

Smart Telemarketer Shield is a call feature that gives you more control over who calls you. Haviland Telephone Marketing Coordinator, Diane Thompson, has been using the service for about a month. She states, "We signed up with the Do-Not-Call Registry at our house, but we were still getting calls from organizations asking for donations, and from credit card companies wanting to sell us additional services. The Smart Telemarketer Shield has stopped these calls."

What is it?

How it works

When someone calls you, they will get the following message:

"The number you have reached does not accept calls from telemarketers or private callers.

If you are a telemarketer, please place this number on your Do Not Call list and hang up now. If you are not a telemarketer, please press "1" to reveal your caller id information and your call will be completed. Otherwise, hang up."

Callers will hear the message the first time that they call you after the feature is turned on, after that, the feature 'learns' that they are an accepted number. If you receive a call from a number you do not wish to receive calls from in the future, simply dial *96 after hanging up, and the number will be added to your blocked numbers list. Further calls from that number will not be allowed.

To manage your block list, dial *95. This will direct you to an automated system where you can manually add or remove numbers from your blocked call list.

Smart Telemarketer Shield is \$1.95/month. However, Haviland Telephone Company is offering a free month trial if you add this call feature in the month of June. Call today to start your free trial.
